7) Legislative Updates (Group)

Discussion:

The **Disability Employment Incentive Act (S25)** <https://trackbill.com/bill/us-congress-senate-bill-255-disability-employment-incentive-act/1660188/>. On January 29, 2019, the bill was reintroduced. The bill text had not changed from last year. It will expand three existing tax credits to support employers who hire individuals with disabilities and make workplaces more accessible to those employees.

Money Follows the Person Bill (Medicaid)

More good news! Short-Term Money Follows the Person Extension signed into law! Now we need to wait (and advocate for) a long-term extension.

Last week U.S. Representatives Brett Guthrie (R-KY) and Debbie Dingell (D-MI) introduced a companion bill in the U.S. House of

Representatives which is identical to the Senate bill S. 2227, the EMPOWER Act. This bill would renew the Money Follows the Person (MFP) program as well as improve it.

The Empower Care Act (Money Follows the Person Reauthorization) was introduced (HR5306 S2227)

(<https://medicaid.publicrep.org/empower-care-act-one-pager/>) that would reauthorize, and appropriate money follows the person Medicaid demonstration project that would shift money from institution care to home and community-based care. This is important because more people with disabilities could live at their homes and be able to work. The president signed three months of appropriation.

Two bills were introduced in the S269 and HR860 identical **Social Security 2100 Act** (<https://www.congress.gov/bill/115th-congress/house-bill/1902>). This would up the date social security benefits for people who don't necessarily earn enough money to receive retirement or disability benefits providing minimum benefits. Representative Larson in the House and Senator Casey in the Senate. This is important because people with disabilities do not earn enough money to receive enough social security or disability benefits to live on.

Transformation to Competitive Employment Act

(<https://edlabor.house.gov/imo/media/doc/2019-01-29%20Transformation%20to%20Competitive%20Employment%20Act%20Fact%20Sheet.pdf>) provides states, services providers,

subminimum wage certificate holders, and other agencies with the resources they need to create competitive integrated employment service delivery models and the inclusive wraparound services that some individuals with disabilities will need. The clauses are also in the Raise the Wage Act (Senator Sanders)

(<https://www.sanders.senate.gov/download/raise-the-wage-act-of-2019?id=48B66B6B-34E4-4149-BC0D-62CF888E4C4A&download=1&inline=file>).

The Able Age Adjustment Act (S651)

(<http://www.ablenrc.org/news/introducing-s-651-able-age-adjustment-act>) was just introduced with strong bipartisan support. It

requires large offsets so as not to increase taxes.

Representative Welch and Senator Casey working on an **Enhanced work Incentives for People with Disabilities Bill**

<https://www.cga.ct.gov/2000/ba/2000HB-05778-R000562-BA.htm>
at retirement age.

Policy idea in the Senate to implement a family leave provision within social security. It would be totally voluntary. (Rubio and Lee).

Disability integration Act <https://www.congress.gov/bill/115th-congress/senate-bill/910>: all democrats signed on. Broader than Empower Care Act. Mandate states towards home and community-based living.

STATE Related:

Working through appropriations to unfreeze the **Attendance Services Program (ASP)**. The **Attendant Services Program** has been frozen for four years. The advocates successfully advocated to have it return but with a smaller budget. The budget surplus was the rationale for the legislative push. Currently, and unique to Vermont, there is no resource/income limit for program; but there may need to compromise to pass the bill. The program allows more people with disabilities (PWD) to gain and maintain employment. This program is for middle class individuals who would have to impoverish themselves in order to get services. Commissioner Monica Hutt agrees with the inequity but is concerned that when the legislature hears that people have funds in the bank, we may need to compromise on the resource/income limit. Bill Botzow suggested that the advocates work on the financial threshold not the legislators in the best interest of individuals with disabilities. This will be VCIL's main legislative platform.

David Sagi, ADA Program Manager for the State of Vermont passed away on the morning of Disability Awareness Day. He testified last year on this and was instrumental in retaining the program.

The **MS Society** wants to **append to the Tax Deduction Bill** home modifications for people with disabilities with income limits.

Conclusions: There is much legislation moving forward and it is important for members of this committee to keep abreast of these. Please see above.
