

Coordinator's Report June 3, 2021

Greetings SRC Members,

With summer weather upon us and ever-growing vaccination numbers, it is time to start planning for how we return to the new normal of our work, including our annual retreat.

Based on [the results](#) of the recent survey, it is clear that SRC members are looking forward to safely coming together in October for an in-person gathering with a virtual participation option. I will be working with the Steering Committee in the coming months to finalize and share details.

Some of the other things keeping me busy the past two months include the following:

- I participated in a six-week course through IDEO.org called *Storytelling for Influence*. I will be applying the learning from that class to my new tasks [supporting VR staff](#) to capture and share stories of VR consumer success.
- [Created a PASS Plan Success Story Video](#) (the target audience for this video is VR consumers who are receiving Social Security, but who are not currently using PASS)
- Ongoing conversations with potential SRC members and following up on appointments in process to assist in recruitment and succession planning efforts. (You can view [the most recent membership report here](#).)

What questions do you have?

Don't hesitate to call, email, or text if I can help in any way!

Best,

Kate Larose, SRC Coordinator
