

ACCESSIBLE SOLUTIONS FOR VERMONTERS

ASSISTIVE TECHNOLOGY IS ALL ABOUT ACCESS

Assistive Technology (AT) can help people with disabilities fully access their home, job, and community. The Vermont Assistive Technology Program is committed to empowering **Vermonters with disabilities of all ages** by providing access to information about accessible solutions that can support independence, productivity, and confidence.

CALL 1-800-750-6355

TRY AT!

Visit a Tryout Center to see and try equipment first hand! An AT Access Specialist will demonstrate devices and answer questions to help you make an informed decision about the best AT for you!

BORROW AT!

Consumers and professionals can borrow equipment for up to 30 days. Visit www.vt.at4all.com to see what we have in our inventory. It's Free!

GET AT!

Buy and Sell used Assistive Technology and durable medical equipment through the AT Exchange site www.vt.at4all.com.

SPREAD THE WORD

Ask us to set up an informational display or equipment demonstration at your next outreach event such as an open house, support group, conference or exhibition.
